Welcome

Dear Colleagues

It is our pleasure to welcome you to the 7th international congress of the Egyptian Cerebro-Cardio-Vascular Association (ECCVA), from Vessel to Heart and Brain Congress (7th VHBC). Our society is the result of merge between neurologists' and cardiologists' minds, who work together in the real world. ECCVA aims at encouraging research in the conjoint area of Heart and Brain science and gives chance to Egyptian members of the society to exchange knowledge with different international experiences through conjoint agreement with World Stroke Organization, and present their work to international scientific media through the international journal of Heart and Brain, which is the official journal of ECCVA. Congress program will discuss Cerebrovascular and Cardiovascular diseases and area in-between. Scientific materials are carefully selected and accredited by the British Academy of Continuing Medical Education. We highly appreciate your participation to enrich the scientific program, and encourage you to share your knowledge and experience with other colleagues through your scientific work finally; we take this opportunity to wish you fruitful meeting and enjoyable stay in Alexandria, Egypt the cradle of civilization, with its rich old and new culture.

**Congress President
Nabil Kitchener**
